## Gritstone Oncology to Present at Two Upcoming Investor Conferences in August

August 3, 2020

EMERYVILLE, Calif., Aug. 03, 2020 (GLOBE NEWSWIRE) -- [Gritstone Oncology](#) (Nasdaq: GRTS), a clinical-stage biotechnology company developing the next generation of cancer immunotherapies to fight multiple cancer types, today announced presentations at two upcoming investor conferences in August.

- Karin Jooss, Ph.D., executive vice president of research and chief scientific officer, will present at the William Blair Biotech Focus Conference 2020 on Wednesday, August 5, 2020 at 2:25 p.m. ET.
- Andrew Allen, M.D., Ph.D., co-founder, president and chief executive officer, will present at the BTIG Biotechnology Conference 2020 on Tuesday, August 11, 2020 at 2:00 p.m. ET.

A live webcast will be available within the Investors & Media section of the Gritstone Oncology website at <https://ir.gritstoneoncology.com/investors/events>. An archived replay will be accessible for 30 days following the event.

### About Gritstone Oncology

Gritstone Oncology (Nasdaq: GRTS), a clinical-stage biotechnology company, is developing the next generation of cancer immunotherapies to fight multiple cancer types. Gritstone develops its products by leveraging two key pillars—second, a proprietary machine learning-based platform, Gritstone EDGE™, which is designed to predict, from a routine tumor biopsy, the tumor-specific neoantigens (TSNA) that are presented on a patient's tumor cells; and second, the ability to develop and manufacture potent immunotherapies utilizing patients' TSNA to potentially drive the patient's immune system to specifically attack and destroy tumors. The company's individualized neoantigen-based immunotherapy, GRANITE, and its "off the shelf" shared neoantigen-based immunotherapy, SLATE, are being evaluated in clinical studies. Novel tumor-specific antigens can also provide targets for bispecific antibody (BiSAb) therapeutics for solid tumors, and Gritstone's BiSAb program is currently in lead optimization.
